

Canon record types & field guide

A working reference to every record type in the Canon editor: what each field is for, whether it accepts one or several choices, and the choices built into the interface.

Prepared from the current editor and profile schema · September 2026

How to read this guide. Record name is required. The other profile fields are optional in the current editor. “Single-select” allows one choice; “multi-select” allows several. A field marked “Custom entry available” accepts an entered value. The listed choices are built-in editor choices, not a guarantee of every world’s live options: active world/global vocabularies can replace labels or add options. A blank field means “not specified,” not necessarily “Unknown.”

Workflow status nuance. The Global Metadata status control does not change the record. Actual lifecycle actions use Proposed → Under Review → Accepted / Superseded / Rejected (with allowed reopen paths). The displayed selector currently lists Draft and Archived although the workflow uses Proposed and Rejected; treat the workflow state as authoritative. The Event type’s “Event Status” is a separate description of an event, not its approval status.

Source spelling. The Character → Core Need built-in choices reproduce the current editor exactly. “Courourage” appears there as written in the source; it likely means “Courage.”

Character Location Object Event Lore Atmosphere Material Relationship Motif

Shared fields System fields

Shared fields

FIELD	INPUT	PURPOSE	BUILT-IN CHOICES / NOTES
Record name	Required text	Names the entity or fact so editors can find and reference it.	
Canon type	Single choice	Selects the kind of record and its type-specific profile.	Character · Location · Object · Event · Lore · Atmosphere · Material · Relationship · Motif
Workflow Status	Single-select	Shows where the record sits in the editorial approval process; changed through workflow actions.	Draft · In Review · Accepted · Superseded · Archived Vocabulary: workflow_status
Canon Stability	Single-select	Signals how open the fact is to revision.	Fluid · Developing · Stable · Locked Vocabulary: canon_stability
Narrative Visibility	Single-select	Controls who in the story can know or encounter the fact.	Public Knowledge · Limited Knowledge · Private · Secret · Author Only Vocabulary: narrative_visibility
Temporal Scope	Single-select	States the period or phase in which the fact applies.	Timeless · Entire Story · Era-Specific · Life-Stage-Specific · Event-Bound · Scene-Bound Vocabulary: temporal_scope
Importance	Single-select	Ranks the fact's significance to the world or story.	Background · Supporting · Significant · Central · Foundational Vocabulary: importance
Spoiler Level	Single-select	Flags how much the record reveals about future events.	None · Mild · Major · Endgame Vocabulary: spoiler_level
Evidence Confidence	Single-select	Records the strength or dispute of supporting evidence.	Speculative · Plausible · Supported · Confirmed · Disputed Vocabulary: evidence_confidence
Source Type	Multi-select	Identifies the kinds of evidence or authority behind the fact.	Direct Observation · Document · Oral Account · Family Tradition · Institutional Record · Physical Evidence · Inference · Authorial Canon Vocabulary: source_type
Narrative details	Rich text	The record's story, purpose, and significance in the world.	
Historical context	Rich text	Origins, era, provenance, and changes over time.	
Visual notes	Rich text	Color, light, texture, materials, and physical presence for creators.	
Editorial notes	Rich text	Working questions, flags, and cross-references for the team.	
Prompt summary	Editable generated text	Compact, reviewed Canon context used to ground image-generation prompts.	Generated or edited; current/stale status shown.
Identity summary	Editable generated text · Character only	Repeatable visual-identity constraints for the character.	Generated or edited; current/stale status shown.
Images	Upload / generate gallery	Holds the primary portrait and supporting references for Canon.	One primary image plus optional additional images.
Asset Title	Text · Images	Names a primary or additional image for editors and viewers.	

FIELD	INPUT	PURPOSE	BUILT-IN CHOICES / NOTES
Asset Role	Single-select · Additional images	Identifies how a supporting image should be used.	Reference · Alternate Portrait · Full Body · Life-Stage Reference · Wardrobe Reference · Expression Reference · Location Exterior · Location Interior · Object Reference · Mood Reference · Historical Reference · Generated Concept. The primary image is designated separately.
Rights Status	Single-select · Images	Records permission or provenance for image use.	Owned · Licensed · Public Domain · Generated (No Copyright) · Unknown
Creator / Source	Text · Images	Credits the creator or records the source link.	
Image Workflow Status	Single-select · Additional images	Tracks whether a supporting image has been reviewed for use.	Suggested · Pending Approval · Approved · Rejected. Separate from Canon record Workflow Status.
Description & Alt Text	Text · Images	Describes image content and supports accessible reading.	
Linked Canon / specs / stories	Linked records	Shows which other records, storylines, scenes, or production items depend on this Canon.	Search/relationship links, not a fixed picklist.

Character

A person or other character: identity, appearance, motivation, voice, knowledge, and version-specific appearance.

Identity, appearance, wardrobe, arc and voice

FIELD	INPUT	PURPOSE	BUILT-IN CHOICES / NOTES
Pronouns	Single-select	Records how the character should be referred to.	She/Her · He/Him · They/Them · Unresolved Vocabulary: pronouns · Custom entry available
Life Stage	Single-select	Places the character or a visual variant in a phase of life.	Infant · Child · Adolescent · Young Adult · Early Adult · Established Adult · Middle Age · Later Life · Elder Vocabulary: life_stage
Occupation or Role	Multi-select	Records work, social duties, and roles the character performs.	No built-in options; use world vocabulary or a custom value. Vocabulary: occupation_or_role · Custom entry available
Social Position	Single-select	Places the character within the world's class or status structure.	Destitute · Laboring Poor · Working Class · Skilled Trade · Lower Middle Class · Middle Class · Upper Middle Class · Gentry · Aristocracy · Royalty · Outside Conventional Class Vocabulary: social_position
Family Position	Single-select	Describes the character's role within a family.	Only Child · Eldest · Middle · Youngest · Heir · Spare · Ward · Adopted · Stepchild Vocabulary: family_position · Custom entry available
Marital State	Single-select	Tracks the character's relationship or marital status.	Unmarried · Courting · Engaged · Married · Separated · Widowed · Remarried · Not Applicable · Withheld Vocabulary: marital_state
Education	Multi-select	Records learning and training that shape the character's capabilities.	Informal · Apprenticeship · Governess or Tutor · Grammar School · Public School · University · Professional Training · Self-Educated · Unknown Vocabulary: education
Financial Security	Single-select	Describes the character's access to reliable resources.	Precarious · Modest · Comfortable · Prosperous · Wealthy · Dependent · Declining · Unknown Vocabulary: financial_security
Public Reputation	Multi-select	Captures how other people generally perceive the character.	Respected · Trusted · Admired · Conventional · Eccentric · Formidable · Questioned · Scandalous · Unknown Vocabulary: public_reputation
Apparent Life Stage	Single-select	Specifies how old the character appears in visual depictions.	Infant · Child · Adolescent · Young Adult · Early Adult · Established Adult · Middle Age · Later Life · Elder Vocabulary: apparent_life_stage
Height	Single-select	Establishes relative physical stature.	Very Short · Short · Average · Tall · Very Tall Vocabulary: height
Build	Multi-select (up to 2)	Describes the character's body shape for prose and visual continuity.	Slight · Lean · Wiry · Average · Broad · Sturdy · Athletic · Soft · Heavyset · Frail Vocabulary: build
Face Shape	Single-select	Defines the broad structure of the face.	Oval · Round · Square · Rectangular · Heart · Diamond · Long · Angular Vocabulary: face_shape

Field	Input	Purpose	Built-in Choices / Notes
Complexion Depth	Single-select	Describes the depth of skin color for visual consistency.	Very Fair · Fair · Light · Medium · Tan · Deep · Very Deep Vocabulary: complexion_depth
Skin Undertone	Single-select	Describes the underlying tone of the complexion.	Cool · Neutral · Warm · Olive · Unknown Vocabulary: skin_undertone
Eye Color	Single-select	Fixes the color of the eyes across depictions.	Gray · Blue · Green · Hazel · Amber · Brown · Dark Brown Vocabulary: eye_color · Custom entry available
Eye Character	Multi-select (up to 3)	Captures distinctive visual qualities of the eyes or gaze.	Deep-Set · Wide-Set · Close-Set · Hooded · Heavy-Lidded · Alert · Soft · Intense · Watchful Vocabulary: eye_character
Hair Color	Single-select	Fixes hair color across depictions.	Black · Dark Brown · Brown · Light Brown · Auburn · Red · Dark Blond · Blond · Gray · White Vocabulary: hair_color · Custom entry available
Hair Texture	Single-select	Describes the texture of the hair.	Straight · Wavy · Curly · Coiled · Fine · Coarse Vocabulary: hair_texture
Hair Length	Single-select	Defines the baseline length of the hair.	Cropped · Short · Ear-Length · Chin-Length · Shoulder-Length · Long Vocabulary: hair_length
Hair Arrangement	Multi-select	Describes the usual hairstyle or arrangement.	Neatly Parted · Loosely Parted · Swept Back · Pinned Up · Braided · Coiled · Covered · Disordered · Receding · Thinning Vocabulary: hair_arrangement
Facial Hair	Single-select	Records the presence and style of facial hair.	None · Clean-Shaven · Stubble · Mustache · Sideburns · Short Beard · Full Beard Vocabulary: facial_hair · Custom entry available
Distinguishing Features	Multi-select	Lists recognizable physical identifiers.	Freckles · Scar · Birthmark · Lines at Eyes · Strong Brow · Prominent Nose · Dimple · Weathering · Callused Hands · Ink-Stained Fingers · Spectacles Vocabulary: distinguishing_features · Custom entry available
Posture	Multi-select (up to 3)	Captures how the character habitually holds their body.	Upright · Formal · Relaxed · Guarded · Stooped · Restless · Grounded · Tense · Graceful · Work-Worn Vocabulary: posture
Movement	Multi-select (up to 3)	Describes the character's typical manner of moving.	Deliberate · Brisk · Economical · Hesitant · Restless · Graceful · Heavy · Quiet · Precise · Expansive Vocabulary: movement
Wardrobe Formality	Single-select	Sets the everyday level or context of dress.	Workwear · Informal Domestic · Everyday Respectable · Professional · Visiting · Evening · Ceremonial · Mourning Vocabulary: wardrobe_formality
Garment Condition	Single-select	Shows how worn or maintained the clothing is.	Patched · Worn · Serviceable · Well-Kept · Fine · Immaculate · Faded · Newly Made Vocabulary: garment_condition
Palette	Multi-select	Sets characteristic clothing colors for visual continuity.	Black · Charcoal · Slate · Navy · Brown · Tan · Cream · White · Olive · Moss · Forest · Burgundy · Rust · Plum · Muted Blue · Dusty Rose Vocabulary: palette · Custom entry available
Textile Preference	Multi-select	Identifies characteristic fabrics in the wardrobe.	Wool · Tweed · Linen · Cotton · Silk · Velvet · Leather · Lace · Muslin · Calico · Oilcloth Vocabulary: textile_preference

Field	Input	Purpose	Built-in Choices / Notes
Pattern	Multi-select	Records recurring clothing or textile patterns.	Solid · Subtle Stripe · Check · Plaid · Floral · Brocade · Geometric · None Vocabulary: pattern
Accessories	Multi-select	Lists recognizable objects carried or worn.	Spectacles · Watch Chain · Brooch · Gloves · Hat · Shawl · Cravat · Tie · Walking Stick · Satchel · Apron · Tools · Jewelry Vocabulary: accessories · Custom entry available
Grooming	Single-select	Describes the character's typical personal presentation.	Immaculate · Neat · Practical · Weathered · Disheveled · Neglected Vocabulary: grooming
Narrative Role	Multi-select	Identifies the character's functions in the story.	Protagonist · Co-Protagonist · Viewpoint Character · Mentor · Ally · Confidant · Romantic Partner · Family Counterpoint · Rival · Antagonist · Foil · Patron · Gatekeeper · Witness · Catalyst · Custodian · Community Voice Vocabulary: narrative_role
Arc Type	Single-select	Summarizes the pattern of change in the character's arc.	Positive Change · Flat or Steadfast · Disillusionment · Corruption · Redemption · Healing · Coming of Age · Fall and Recovery · Tragic Fall · Mystery or Revelation · Legacy Vocabulary: arc_type
Starting Condition	Multi-select	Captures the character's state at the beginning of their arc.	Secure · Isolated · Dutiful · Restless · Grieving · Ambitious · Disillusioned · Protected · Burdened · Curious · Distrustful · Hopeful Vocabulary: starting_condition
Core Desire	Single-select	States what the character consciously wants.	Belonging · Security · Recognition · Freedom · Love · Truth · Restoration · Justice · Control · Legacy · Reconciliation · Purpose · Protection Vocabulary: core_desire · Custom entry available
Core Need	Single-select	States what the character must learn or develop.	Trust · Humility · Courage · Self-Knowledge · Connection · Agency · Forgiveness · Acceptance · Responsibility · Hope · Boundaries Vocabulary: core_need · Custom entry available
Core Fear	Single-select	Names the fear influencing the character's decisions.	Abandonment · Failure · Exposure · Powerlessness · Disorder · Intimacy · Loss · Disgrace · Dependence · Repetition of the Past Vocabulary: core_fear · Custom entry available
Misconception	Single-select	Identifies a mistaken belief the story may challenge.	Duty Requires Self-Denial · Control Prevents Loss · Worth Must Be Earned · Vulnerability Is Weakness · Tradition Must Not Change · Love Requires Rescue · Knowledge Equals Wisdom Vocabulary: misconception · Custom entry available
Resisted Change	Multi-select	Names changes the character resists making.	Asking for Help · Sharing Authority · Accepting Love · Relinquishing Control · Facing the Past · Speaking Truth · Breaking Convention · Assuming Responsibility · Forgiving Vocabulary: resisted_change
Ending Condition	Multi-select	Captures the intended state at the end of the arc.	Secure · Isolated · Dutiful · Restless · Grieving · Ambitious · Disillusioned · Protected · Burdened · Curious · Distrustful · Hopeful Vocabulary: ending_condition
Speech Register	Single-select	Sets the general formality and social tone of speech.	Formal · Educated Conversational · Plainspoken · Regional · Professional · Domestic · Ceremonial · Mixed Vocabulary: speech_register

FIELD	INPUT	PURPOSE	BUILT-IN CHOICES / NOTES
Sentence Rhythm	Multi-select	Describes recurring pacing and structure in dialogue.	Concise · Measured · Elaborate · Hesitant · Rapid · Precise · Circular · Storytelling · Fragmented Vocabulary: sentence_rhythm
Directness	Single-select	Indicates how plainly the character says what they mean.	Evasive · Indirect · Diplomatic · Direct · Blunt Vocabulary: directness
Emotional Openness	Single-select	Indicates how readily the character voices feelings.	Closed · Guarded · Selective · Open · Effusive Vocabulary: emotional_openness
Humor	Multi-select	Describes the character's habitual style of humor.	None · Dry · Wry · Gentle · Playful · Sardonic · Self-Deprecating · Mischievous · Gallows Humor Vocabulary: humor
Conflict Style	Multi-select	Shows how the character responds to disagreement.	Avoids · Deflects · Appeases · Negotiates · Challenges · Commands · Withdraws · Uses Evidence · Uses Humor Vocabulary: conflict_style
Affection Style	Multi-select	Shows how the character expresses care.	Practical Help · Time · Gifts · Protection · Touch · Praise · Teasing · Shared Work · Quiet Presence Vocabulary: affection_style
Vocabulary Tendencies	Multi-select	Identifies subject areas that color the character's word choice.	Technical · Botanical · Architectural · Legal · Religious · Literary · Domestic · Commercial · Agricultural · Regional Vocabulary: vocabulary_tendencies

Knowledge records (repeatable)

FIELD	INPUT	PURPOSE	BUILT-IN CHOICES / NOTES
Knowledge State	Single-select	Tracks how much the character knows about the topic.	Unaware · Suspicious · Partially Aware · Knows · Expert · Mistaken · Withheld Vocabulary: knowledge_state
Confidence	Single-select	Records how certain the character feels about their knowledge.	Low · Medium · High · Certain Vocabulary: confidence
Source	Single-select	Identifies how the character learned or inferred the information.	Witnessed · Told Directly · Letter or Document · Gossip · Professional Knowledge · Family Tradition · Inference · Unknown Vocabulary: source
Disclosure	Single-select	Controls who may be told or shown this information.	Public · Select Circle · Private · Secret · Author Only Vocabulary: disclosure
Access	Single-select	Describes who can enter a place or reach a piece of knowledge.	None · Indirect · Occasional · Regular · Privileged · Custodial Vocabulary: access
Topic or Linked Canon	Text	Topic being tracked; this is a text field, not the world Canon search picker.	
What the character believes	Text	Subjective belief, whether true or false.	
Dramatic consequence	Text	How the knowledge changes choices or conflict.	

Life-stage variants (repeatable)

FIELD	INPUT	PURPOSE	BUILT-IN CHOICES / NOTES
Life Stage	Single-select	Places the character or a visual variant in a phase of life.	Infant · Child · Adolescent · Young Adult · Early Adult · Established Adult · Middle Age · Later Life · Elder Vocabulary: life_stage
Variant Name	Text	Names an alternate depiction of the same character.	
Apparent Age Range	Text	Gives the visible age range for this variant.	
Story Period Label	Text	Links the variant to a particular story period.	
Hair & Facial Hair Changes	Text	Describes hair changes specific to this variant.	
Facial Hair Changes	Text	Describes facial-hair changes specific to this variant.	
Health / Mobility Changes	Text	Records health or mobility differences in this period.	
Wardrobe Profile	Text	Describes clothing specific to this variant.	
Occupation Status	Text	Records the character's work or position at this stage.	
Emotional Baseline	Text	Describes the character's usual emotional state at this stage.	
Visual Notes	Text	Adds visual continuity instructions for this variant.	
Reference Asset IDs	Comma-separated IDs	Links visual references that anchor this variant.	
Allowed Deviations	Text	Lists ways this variant may differ from the base identity.	

Visual identity locks (repeatable)

FIELD	INPUT	PURPOSE	BUILT-IN CHOICES / NOTES
Category	Single-select	Selects which visual trait an identity lock governs.	Facial Structure · Eye Color · Hair Family · Posture · Accessory Vocabulary: category
Strength	Single-select	Sets how strictly the visual trait must be enforced.	Suggestion · Preferred · Required · Immutable Vocabulary: strength
Canonical Value	Text	States the exact trait the generated image must preserve.	

Additional character prose

FIELD	INPUT	PURPOSE	BUILT-IN CHOICES / NOTES
Canon Guardrails	Rich text	Boundaries and truths that future writing must not contradict.	
Relationship details	Rich text	Important bonds, tensions, loyalties, and relational history.	
Character Direction	Rich text	Intended trajectory, pressures, and development.	
Confirmed Canon	Rich text	Established, approved facts about the character.	

Additional profile schema fields not shown in this editor

These fields are accepted by the typed profile schema, but the current Canon form does not offer a picklist for them. No fixed options are defined in this form.

FIELD	INPUT	PURPOSE	BUILT-IN CHOICES / NOTES
performanceEnergy	Text / list	Desired energy or presence in a portrayal.	No editor choices defined
audienceAlignment	Text / list	How the audience is meant to relate to the character.	No editor choices defined
moralFraming	Text / list	Intended ethical framing of the character's actions.	No editor choices defined
portrayalCautions	Text / list	Constraints or sensitivities for depicting the character (list).	No editor choices defined

Location

A place: its scale, use, ownership, access, and material or sensory character.

FIELD	INPUT	PURPOSE	BUILT-IN CHOICES / NOTES
Location Scale	Single-select	Defines the physical size or geographic level of a place.	Room · Building · Property · Hamlet · Village · Town · City District · City · Estate · Landscape · Region · Country Vocabulary: location_scale
Primary Function	Multi-select	Describes what the place is chiefly used for.	Domestic · Agricultural · Commercial · Industrial · Civic · Religious · Educational · Medical · Recreational · Ceremonial · Transportation · Wild · Ruin Vocabulary: primary_function
Ownership	Single-select	Identifies who owns or claims the place.	Private · Family · Estate · Corporate · Municipal · Ecclesiastical · Crown · Common Land · Contested · Unknown Vocabulary: ownership
Condition	Single-select	Records the present physical state of a place or object.	Pristine · Well-Kept · Serviceable · Worn · Neglected · Decaying · Ruined · Under Construction · Under Restoration · Altered Vocabulary: condition
Access	Single-select	Describes who can enter a place or reach a piece of knowledge.	Open · Public with Limits · Invitation Only · Staff Only · Restricted · Secret · Abandoned · Seasonal Vocabulary: access
Population Density	Single-select	Indicates how inhabited or busy a place is.	Uninhabited · Isolated · Sparse · Moderate · Busy · Crowded Vocabulary: population_density
Setting Character	Multi-select	Captures the atmosphere and social feel of a location.	Formal · Intimate · Domestic · Industrious · Picturesque · Austere · Wild · Sheltered · Exposed · Sacred · Uncanny · Oppressive · Restorative Vocabulary: setting_character
Dominant Materials	Multi-select	Identifies the visible or structural materials of a setting.	Local Stone · Brick · Timber · Slate · Thatch · Iron · Glass · Plaster · Tile · Earth · Water · Living Plant Material Vocabulary: dominant_materials

Additional profile schema fields not shown in this editor

These fields are accepted by the typed profile schema, but the current Canon form does not offer a picklist for them. No fixed options are defined in this form.

FIELD	INPUT	PURPOSE	BUILT-IN CHOICES / NOTES
naturalLight	Text / list	Quality of daylight at the setting.	No editor choices defined
artificialLight	Text / list	Sources or qualities of man-made light (list).	No editor choices defined
weatherExposure	Text / list	How exposed the setting is to the elements.	No editor choices defined
seasonalBehavior	Text / list	How the place changes across seasons (list).	No editor choices defined
sensorySound	Text / list	Recurring sounds in the place (list).	No editor choices defined
sensoryScent	Text / list	Recurring smells in the place (list).	No editor choices defined
sensoryTactile	Text / list	Touch and texture cues of the place (list).	No editor choices defined

FIELD	INPUT	PURPOSE	BUILT-IN CHOICES / NOTES
sensoryAtmosphere	Text / list	Other sensory impressions of the setting (list).	No editor choices defined

Object

A physical item: its form, material, condition, authenticity, and narrative role.

FIELD	INPUT	PURPOSE	BUILT-IN CHOICES / NOTES
Object Class	Single-select	Classifies what kind of physical object this is.	Personal · Domestic · Professional · Agricultural · Architectural · Decorative · Documentary · Scientific · Religious · Ceremonial · Mechanical · Commercial · Weapon · Clothing · Botanical Vocabulary: object_class
Scale	Single-select	Specifies the object's approximate physical size.	Handheld · Portable · Furniture · Room-Scale · Architectural · Landscape Feature Vocabulary: scale
Material	Multi-select	Lists the substances from which the object is made.	Wood · Paper · Leather · Stone · Brick · Iron · Steel · Brass · Copper · Silver · Gold · Glass · Ceramic · Textile Vocabulary: material · Custom entry available
Condition	Single-select	Records the present physical state of a place or object.	New · Pristine · Used · Worn · Repaired · Damaged · Incomplete · Decayed · Restored · Replica Vocabulary: condition
Authenticity	Single-select	Distinguishes an original from a modification, replacement, replica, or forgery.	Original · Modified Original · Restoration · Replacement · Replica · Forgery · Uncertain Vocabulary: authenticity
Story Function	Multi-select	Explains the role an object or relationship plays in the narrative.	Evidence · Heirloom · Tool · Symbol · MacGuffin · Gift · Burden · Memorial · Key · Record · Source of Conflict Vocabulary: story_function

Additional profile schema fields not shown in this editor

These fields are accepted by the typed profile schema, but the current Canon form does not offer a picklist for them. No fixed options are defined in this form.

FIELD	INPUT	PURPOSE	BUILT-IN CHOICES / NOTES
craftLevel	Text / list	Quality or sophistication of workmanship.	No editor choices defined
rarity	Text / list	How scarce the object is in the world.	No editor choices defined
custody	Text / list	Who has possession or responsibility for the object.	No editor choices defined

Event

Something that happened, is rumored, is planned, or is ongoing.

FIELD	INPUT	PURPOSE	BUILT-IN CHOICES / NOTES
Event Type	Multi-select	Classifies what happened or is expected to happen.	Birth · Death · Marriage · Separation · Arrival · Departure · Discovery · Inheritance · Purchase · Sale · Construction · Restoration · Accident · Illness · Crime · Scandal · Trial · Celebration · Disaster · Protest Vocabulary: event_type
Temporal Precision	Single-select	Indicates how precisely the event can be dated.	Exact Date · Approximate Date · Season · Year · Era · Relative Sequence · Unknown Vocabulary: temporal_precision
Event Status	Single-select	Separates events that occurred from plans, rumors, disputes, or ongoing events.	Planned · Occurred · Rumored · Disputed · Prevented · Ongoing · Recurring Vocabulary: event_status
Consequence Scale	Single-select	Describes the social or geographic reach of the event's effects.	Personal · Relationship · Household · Community · Regional · National · Generational Vocabulary: consequence_scale

Additional profile schema fields not shown in this editor

These fields are accepted by the typed profile schema, but the current Canon form does not offer a picklist for them. No fixed options are defined in this form.

FIELD	INPUT	PURPOSE	BUILT-IN CHOICES / NOTES
certainty	Text / list	Strength of evidence that the event happened as described.	No editor choices defined
narrativeFunction	Text / list	Story roles served by the event (list).	No editor choices defined
visibility	Text / list	How widely the event is known.	No editor choices defined
participants	Text / list	People or entities who took part (list).	No editor choices defined
witnesses	Text / list	People or entities who observed it (list).	No editor choices defined
causes	Text / list	Events or factors that caused it (list).	No editor choices defined
immediateConsequences	Text / list	Direct short-term effects (list).	No editor choices defined
longTermConsequences	Text / list	Lasting or generational effects (list).	No editor choices defined
evidence	Text / list	Evidence for the event (list).	No editor choices defined
affectedCanonRecords	Text / list	Other Canon records changed or implicated (list).	No editor choices defined

Lore

An in-world belief, custom, principle, memory, or legend.

FIELD	INPUT	PURPOSE	BUILT-IN CHOICES / NOTES
Lore Type	Multi-select	Classifies a belief, practice, principle, tradition, or story.	Principle · Tradition · Belief · Folklore · Custom · Rule · Oath · Legend · Family Story · Professional Practice · Community Memory · Superstition · Institutional Doctrine Vocabulary: lore_type
Origin	Single-select	Identifies where the lore came from or who originated it.	Known Individual · Family · Community · Institution · Region · Ancient or Untraceable · Disputed · Authorial Construct Vocabulary: origin
Acceptance	Single-select	Indicates how widely the lore is believed or observed.	Universal · Majority · Common · Mixed · Minority · Private · Forgotten · Reviving · Disputed Vocabulary: acceptance
Truth Status	Single-select	Separates the lore's objective truth from its in-world acceptance.	Objectively True · Partly True · Metaphorically True · False but Believed · Deliberate Fiction · Unknown · Irrelevant Vocabulary: truth_status

Additional profile schema fields not shown in this editor

These fields are accepted by the typed profile schema, but the current Canon form does not offer a picklist for them. No fixed options are defined in this form.

FIELD	INPUT	PURPOSE	BUILT-IN CHOICES / NOTES
enforcement	Text / list	How the lore or rule is upheld.	No editor choices defined
flexibility	Text / list	Whether it allows interpretation or exceptions.	No editor choices defined
transmission	Text / list	Ways it is passed on (list).	No editor choices defined
storyUse	Text / list	Narrative uses of the lore (list).	No editor choices defined

Atmosphere

A recurring or bounded mood attached to a scene, place, or story.

FIELD	INPUT	PURPOSE	BUILT-IN CHOICES / NOTES
Emotional Register	Multi-select	Sets the prevailing emotional tone of an atmosphere.	Warm · Hopeful · Intimate · Reflective · Melancholic · Tense · Ominous · Uncanny · Joyful · Austere · Restorative · Romantic · Grieving · Industrious Vocabulary: emotional_register
Intensity	Single-select	Indicates how strongly that atmosphere is felt.	Subtle · Light · Moderate · Strong · Dominant Vocabulary: intensity
Duration	Single-select	Specifies how long or how broadly the atmosphere persists.	Momentary · Scene · Sequence · Recurring · Location-Bound · Story-Wide Vocabulary: duration

Additional profile schema fields not shown in this editor

These fields are accepted by the typed profile schema, but the current Canon form does not offer a picklist for them. No fixed options are defined in this form.

FIELD	INPUT	PURPOSE	BUILT-IN CHOICES / NOTES
sensoryEmphasis	Text / list	Sensory details that evoke the mood (list).	No editor choices defined
narrativeVisibility	Text / list	How directly the atmosphere should be described.	No editor choices defined

Material

A substance or material with identity, scarcity, and defining properties.

FIELD	INPUT	PURPOSE	BUILT-IN CHOICES / NOTES
Material Class	Single-select	Classifies what kind of substance the material is.	Organic · Synthetic · Mineral · Composite · Magical/Alchemical Vocabulary: object_class
Rarity	Single-select	Indicates how difficult this material is to find in the world.	Common · Uncommon · Rare · Legendary · Unique Vocabulary: rarity
Primary Properties	Multi-select	Records practical or sensory properties that matter to its use.	Brittle · Ductile · Flammable · Luminous · Toxic · Durable Vocabulary: material · Custom entry available

Additional profile schema fields not shown in this editor

These fields are accepted by the typed profile schema, but the current Canon form does not offer a picklist for them. No fixed options are defined in this form.

FIELD	INPUT	PURPOSE	BUILT-IN CHOICES / NOTES
scale	Text / list	Physical size of an object made from the material.	No editor choices defined
condition	Text / list	Current physical condition of the object.	No editor choices defined
craftLevel	Text / list	Quality of workmanship.	No editor choices defined
authenticity	Text / list	Whether an object is an original or a reproduction.	No editor choices defined
custody	Text / list	Current keeper or owner of an object.	No editor choices defined
storyFunction	Text / list	The object's roles in a story (list).	No editor choices defined

Material reuses the object profile schema. Its Material Class vocabulary key is `object_class`, and Primary Properties uses `material`; world-specific vocabularies may therefore affect both Material and Object pickers.

Relationship

An explicit tie between two Canon entities, with emotional and social dynamics.

FIELD	INPUT	PURPOSE	BUILT-IN CHOICES / NOTES
From Entity	Canon search	Selects the first Canon entity in a relationship.	Searches Canon records in the selected world; no fixed list.
To Entity	Canon search	Selects the second Canon entity in a relationship.	Searches Canon records in the selected world; no fixed list.
Relationship Type	Multi-select	Classifies the bond or social tie between the entities.	Parent · Child · Sibling · Spouse · Romantic · Friend · Confidant · Colleague · Employer · Employee · Mentor · Student · Patron · Client · Rival · Adversary · Neighbor · Caregiver · Ward · Business Partner · Custodian · Community Tie Vocabulary: relationship_type
Directionality	Single-select	Shows whether the relationship is mutual or weighted toward one side.	Mutual · Primarily From · Primarily To · Unequal · Misunderstood Vocabulary: directionality
Phase	Single-select	Describes the relationship's current stage.	Unknown · Newly Formed · Developing · Established · Strained · Estranged · Repaired · Ended · Bereaved Vocabulary: phase
Emotional Valence	Single-select	Describes the dominant feeling between the entities.	Loving · Warm · Respectful · Loyal · Neutral · Ambivalent · Competitive · Resentful · Fearful · Hostile · Grieving Vocabulary: emotional_valence
Trust	Single-select	Rates how far the parties trust one another.	None · Fragile · Conditional · Moderate · Strong · Absolute · Misplaced Vocabulary: trust
Power Balance	Single-select	Shows which entity has more leverage or authority.	Balanced · Slightly From-Dominant · Slightly To-Dominant · Strongly From-Dominant · Strongly To-Dominant · Context-Dependent Vocabulary: power_balance
Public Visibility	Single-select	States who knows about the relationship.	Public · Known to Circle · Private · Secret · Misrepresented Vocabulary: public_visibility
Dependency	Multi-select	Lists ways one party relies on the other.	Emotional · Financial · Social · Professional · Legal · Physical · Informational · None Vocabulary: dependency
Primary Tension	Multi-select	Captures the main source of friction in the relationship.	Duty vs Desire · Trust · Class · Money · Inheritance · Reputation · Authority · Secrecy · Grief · Jealousy · Ideology · Protection · Distance · Miscommunication Vocabulary: primary_tension
Story Function	Multi-select	Explains the role an object or relationship plays in the narrative.	Support · Pressure · Foil · Revelation · Conflict · Reconciliation · Catalyst · Stakes · Comic Relief · Witness Vocabulary: story_function

The editor also stores relationship data through a dedicated relationship endpoint. “From” and “To” search existing Canon records in the selected world rather than using fixed choices.

Motif

A recurring sensory, visual, verbal, or material element with evolving meaning.

FIELD	INPUT	PURPOSE	BUILT-IN CHOICES / NOTES
Motif Class	Multi-select	Identifies the sensory or material form of a recurring motif.	Natural · Architectural · Object · Color · Sound · Gesture · Weather · Animal · Plant · Textile · Light · Repeated Phrase Vocabulary: motif_class
Recurrence	Single-select	States how often the motif returns.	Rare · Occasional · Regular · Structural Vocabulary: recurrence
Evolution	Single-select	Shows how the motif's meaning changes over time.	Static · Accumulates Meaning · Reverses Meaning · Degrades · Restores · Changes Owner Vocabulary: evolution

Additional profile schema fields not shown in this editor

These fields are accepted by the typed profile schema, but the current Canon form does not offer a picklist for them. No fixed options are defined in this form.

FIELD	INPUT	PURPOSE	BUILT-IN CHOICES / NOTES
function	Text / list	Narrative functions of the motif (list).	No editor choices defined

System-managed and schema-only fields

These fields exist in storage or supporting APIs, but they are not additional general-purpose picklists in the Canon editor.

FIELD	INPUT	PURPOSE	BUILT-IN CHOICES / NOTES
Record ID / World ID	System identifiers	Identify the record and the world to which it belongs.	
Structured profile	Typed profile document	Stores the type-specific fields in this guide; older records may also carry a compatibility JSON profile.	
Global metadata	Structured metadata	Stores shared stability, visibility, temporal scope, importance, spoiler, evidence, and source classifications.	
Schema-only global metadata	Text / list / semantic state	Can hold a one-line definition, tags, and a reason a classification is not filled in.	Semantic state: Unknown · Unresolved · Not Applicable · Withheld · Custom. No current editor controls for these profile fields.
Generation profile	Structured settings	Stores image-generation constraints including character identity locks.	
Prompt/identity summary hashes & generated timestamps	System provenance	Mark whether generated summaries still match the source Canon.	
Typography	Linked font roles	Carries selected font families, weights, and roles when a record has typography guidance.	
Legacy emotional register / sensory clauses / register lock	Authorial prompt controls	Constrain inherited emotional tone and sensory description; the lock prevents downstream cascade from overwriting the register.	Legacy register values: Withholding · Intimate · Guarded · Trespass · Absence · Confidence.
Legacy narrative visibility / temporal scope / canon stability	Legacy text metadata	Older top-level classifications may coexist with newer global-metadata choices; they are not the same picklists.	
From / To entity IDs, emotional valence	Relationship links	Connect relationship records to two Canon entities and their emotional tenor.	
Spec reference count	Calculated count	Counts linked production specs for display.	
Primary portrait / image URLs / image gallery	Stored asset references	Stores portrait and supporting image references; primary portrait mirrors the first gallery entry.	
Notion page ID / synced at	Sync metadata	Tracks an associated Notion record and last synchronization.	
Created by / created at / updated at	Audit metadata	Records authorship and timestamps.	
Record relations	Separate linked entity	Stores directed Canon-to-Canon relations with relation type, details, scope, source, and audit information.	

Source of truth: Canon editor and type forms in `artifacts/admin/src/pages/super/worldsmith-editorial/CanonRecordEditor.tsx` and `artifacts/admin/src/components/worldsmith/editorial/CanonTypeForms.tsx`; vocabulary behavior in `EditorialFields.tsx`;

persisted models in `lib/db/src/schema/worldsmith-editorial.ts` and `worldsmith-foundation.ts`. This is a snapshot of the current code, not an export of a particular world's live vocabulary values.
